

Southampton Winter Leagues:

To qualify for a playoff game(s) for a position in the winter league, teams must fulfill one of the following criteria:

- 1.** Be an established club playing outside of the Southampton Winter League.
Final league table will be sought as proof of finishing position, along with players names to confirm that the players, being named in the club for entry into the Southampton league, play/played in the preceding season.
- 2.** Be a new club wishing to enter the Southampton Winter League.
The committee will assess the suitability of the players named in the club and decide which divisional play-off the new club will be eligible for. Proof of player's suitability will be sought by the committee prior to acceptance, which will include confirmation that they played in the preceding season.
- 3.** Be an existing club wishing to enter an additional team into the Southampton Winter League.
The committee will assess the suitability of the players named in the additional team and decide which divisional play-off the new team will be eligible for. Proof of player's suitability will be sought by the committee prior to acceptance, which will include confirmation that they played in the preceding season. **NOTE:** no players from the club who play/played in the current Southampton Winter League may play in the play offs.
